SPE Cartridges

- **Easy to Use**
Spe-ed Cartridges are simple to use and allow four-step sample preparation. Our technical support staff is available to assist you in methods development.
- **Fast Sample Preparation**
Prepare samples up to nine times faster than with traditional extraction techniques. We also offer special configurations to speed up your solid phase extraction procedures, such as our non-clogging *Spe-ed Flow* configuration.
- **Economical and Environmentally Friendly**
Reduce the use of hazardous solvents by 95%, and reduce operator time, glassware, and equipment by 83%.
- **Versatile**
CPI International offers the largest selection of sorbents and resins available packed into a multitude of cartridge configurations.
- **High Quality**
With over 30 years of SPE manufacturing experience, we can guarantee the high quality of our products to meet your needs.
- **Accessories**
CPI International offers the necessary accessories to facilitate sample preparation, including:
 - frits
 - luer needles
 - stopcocks
 - empty cartridges
 - caps and tips
- **CPI International offers contract packing of sorbents**
 - Proprietary sorbents that need to be packed in an SPE cartridge
 - Special vials, containers, cartridges or housings that need to be packed with sorbent
 - An unusual or non-standard quantity of sorbent to be packed in an SPE cartridge

CPI International offers a complete line of SPE Cartridges.

Silica-Based Cartridges

CPI International offers a complete line of Silica Based SPE Cartridges.

Polymeric Packings

CPI International offers a complete line of Polymeric Cartridges.

Whole Blood

CPI International has what you need for your whole blood projects.

Particulate Removal

CPI International can meet all of your particulate removal needs.

Environmental SPE

CPI International offers a complete line of Environmental SPE products.

Food SPE

CPI International can help with your Food SPE projects.

Drugs of Abuse

Spe-ed Cartridges for Drugs of Abuse are copolymeric bonded-phase cartridges for drugs of abuse screening and confirmations.

Biotech SPE

Spe-ed Cartridges for Biotech are the industry standard.

Applications

We have compiled a comprehensive list of **SPE and Flash chromatography applications** available for free. Click here to view the list of the **the applications** you can put to use immediately in your
